Expert Power Solutions, Inc is an employee-owned electrical engineering firm committed to technical excellence and high-quality service. We provide NERC compliance services and integrated protection and controls engineering for heavy industrial and power plants throughout North America. We look forward to being your trusted adviser and advocate.

Sorotec, a leading manufacturer with nearly 20 years of experience in the industry, takes pride in offering a wide range of high-quality solar inverters and lithium battery solutions. Our products are designed to meet the diverse needs of residential, commercial, and industrial applications, providing reliable and efficient power conversion and storage solutions.

Sorotec, a leading manufacturer with over 17 years of experience in the industry, takes pride in offering a wide range of high-quality solar inverters and lithium battery solutions. Our products ...

Sorotec grid-connected solar inverter adopts advanced technology, which can efficiently convert DC power generated by solar panels into AC power, and provide stable and reliable power for household and commercial purposes.

CONTROL DE CALIDAD. El departamento de control de calidad de SORO es responsable de inversor solar híbrido, Mejora el trabajo de planificación de calidad y gestión de calidad de los productos, implementa el estándar de inspección de productos terminados y analiza todo tipo de datos registrados de calidad. Mejorar las anomalías en la calidad del producto, controlar las ...

Solar Power for Telecom Towers 48VDC 10-200A Solar Power SystemsApplication:Power plant or substation power for controlling, protection and automatic device, emergency lighting, communications, steam turbine DC oil pump and so on independent DC systems.

48VDC Solar Power System Telecom Base Station Case.Application: power plant or substation power for controlling, protection and automatic device, emergency lighting, communications, steam turbine DC oil pump and so on independent DC systems. It can provide reliable power supply in the case of a power failure completely in plant or substation.
