

Micronesia freyr battery gigafactory

Will Freyr build a 43 GWh battery Gigafactory in Norway?

The company is trying to secure financing for a 43 GWh battery gigafactory in Norway too. Freyr, a Norwegian startup that intends to become a lithium-ion battery manufacturer, announced that it is in talks to build a plant also in the U.S. Let's start from the beginning.

Will Freyr build a Gigafactory in Georgia?

Freyr plans to build out a \$2.57 billion gigafactory complex in Georgia, as seen in this rendering taken from a project video (viewable below). Freyr, a publicly traded company with Norwegian roots, is set to build a nearly \$2.6 billion battery plant in Newnan to meet an anticipated spike in demand for energy-storage systems in North America.

Where are Freyr batteries made?

FREYR has commenced building the first of its planned factories in Mo i Rana, Norway and announced potential development of industrial scale battery cell production in Vaasa, Finland, and the United States. FREYR intends to install 50 GWh of battery cell capacity by 2025 and 100 GWh annual capacity by 2028 and 200 GWh of annual capacity by 2030.

Will Freyr build a lithium-ion battery plant in the US?

Freyr, a Norwegian startup that intends to become a lithium-ion battery manufacturer, announced that it is in talks to build a plant also in the U.S. Let's start from the beginning. A year ago, Freyr announced a plan to build 2 GWh pilot plant in Norway that would be followed by a 32 GWh (annually) full-size plant.

Is Freyr building a battery plant in Norway?

A year ago, Freyr announced a plan to build 2 GWh pilot plant in Norway that would be followed by a 32 GWh (annually) full-size plant. The battery cell tech would come from 24M Technologies, which is another startup. According to the latest updates, the Norwegian manufacturing capacity target was increased to up to 43 GWh annually by 2025.

How much battery capacity will Freyr deliver?

FREYR intends to deliver up to 43 GWh of battery cell capacity by 2025, over 83 GWh of annual capacity by 2028 and over 200 GWh of annual capacity by 2030. To learn more about FREYR, please visit

We caught up with Birger Steen, CEO of lithium-ion gigafactory company Freyr Battery, about its recent decision to minimise European investments in light of the Inflation Reduction Act (IRA), discussing a potential ...
