

Mozambique nearest solar company

Does Mozambique need solar energy?

In the rapidly evolving world of renewable energy, Mozambique has emerged as a significant player, especially in the solar energy sector. With its abundant sunshine and increasing focus on sustainable development, the demand for solar energy systems in Mozambique has seen a considerable rise.

Why is Mozambique a good place to invest in solar energy?

Firstly, Mozambique has a high solar irradiation level, making it an ideal location for harnessing solar energy. This abundant solar resource presents a sustainable and cost-effective solution for addressing the country's energy needs.

Who is building a solar power plant in Mozambique?

The Spanish group TSK has won the contract to build the Cuamba solar power plant in the Niassa province of Mozambique. The 20 MWp project is being developed by British independent power producer (IPP) Globeleq.

Who owns Mozambique's first solar plant?

The first utility-scale solar plant in Mozambique, the Mocuba 40 MW project, was inaugurated in April 2019. It is owned by a consortium of private investors while Electricidade de Moçambique (EdM), the national utility, has a 25% shareholding. EdM revealed plans in 2019 to develop several small, grid-tied solar parks throughout the country.
