Who is the best solar energy provider in Canada?

Mysolar.ca is a top-notch solar energy provider in Canada. Their service reviews consistently praise their professionalism, efficiency, and dedication to customer satisfaction. Customers rave about the high-quality solar panels they install, which are not only eco-friendly but also cost-effective in the long run.

Should I use Mysolar for my solar installation?

If you're considering solar as part of your energy program -- these are the guys to do it! I highly recommend mySolar for your solar installation needs. The team was professional, knowledgeable, and efficient throughout the entire process. They walked me through every step and answered all of my questions.

At My Home Solar UK, our commitment to excellence is evident in the quality of our installations and the extensive knowledge we possess in insulation, electrical solutions, and solar energy systems. We pride ourselves on delivering unrivalled customer service and we firmly believe that renewable energy is the future.

Sure enough, within 7 days of my initial contact with My Home Solar, we had: agreed the contract; paid the deposit; had a surveyor visit and agreed the configuration; had the scaffolding erected front and back; and welcomed two fitting teams (one each for roof panels and ground electrics). I was pleased to note that my deposit was automatically ...
