

Namibia vendor solar panel

Does Namibia have solar power?

We have the potential to capture around 10 hours of strong sunlight per day for 300 days per year. As a result, Namibia has some of the highest solar irradiance potential of any country in Africa, which is sufficient to provide power for our people and our neighbours.

Which battery is best for a solar system in Namibia?

In Namibia, lithium-ion batteries are typically the best option for a solar panel system.

Why should you choose NEC solar systems in Namibia?

NEC solar systems are a reliable and robust choice for Namibia due to their 35-year track record of Solahart products in Namibia. NEC offers a variety of solar systems custom-made to suit many different applications in Namibia.
