Can New Zealand recharge EV batteries?

In a New Zealand first, Counties Energy is completing the life-cycle for used electric vehicle (EV) batteries by converting them into its Berm Battery energy storage system for recharging EVs.

How much does a battery cost in New Zealand?

The mean charging spot price was \$123/MWh and the median was \$132/MWh. As New Zealand electrifies, more grid-scale batteries will support the growing renewable energy supply. Meridian Energy is building a 100MW (200MWh) battery near Ruakaka in sunny Northland. This battery is expected to be commissioned in September 2024.

Why has the New Zealand battery project been withheld?

Some information has been withheld for the reasons of commercial information, confidential advice entrusted to the Government, negotiations, and national security or defence. This paper seeks Cabinet's agreement to progress the New Zealand Battery Project to its next phase of work.

What are grid-scale batteries & how can they benefit New Zealand?

Grid-scale batteries maximise the benefits of renewable energy and provide extra resilience during times of tight electricity supply. Additionally, these batteries, alongside more renewable generation, will help off-set the retirement of thermal generation and support New Zealand's transition to a low-emissions economy.

Is the berm battery New Zealand's First Second-Life Battery?

Officially launched today, the Berm Battery's journey to become New Zealand's first second-life battery system followed a comprehensive planning and certification process which began in 2020 and included two years of testing including in a 'real world' environment. It was commissioned in October 2023.

How much electricity does NZAS use?

Further, under their current contract, Meridian Energy can call on the New Zealand Aluminium Smelter (NZAS) to reduce its electricity demand by 250GWh over 130 days during a dry year (noting that the dry year problem is 3,000 - 5,000 GWh). This amounts to 80MW, compared to current consumption of around 570 MW.

That's why we started fitness and believe EMS training is the future of fitness workouts in Auckland and New Zealand. 20mins EMS Personal Training not only challenges you by activating 90% ...
