

New Zealand jetion solar europe ltd

What's new at Jetion Solar?

Jetion Solar recently announced the setting up of a new 5 GW heterojunction PV module factory in China. However, no further details about the new factory or the HJT module technology were disclosed. Jetion Solar currently has a production capacity of 2.5 GW for PV modules and 2 GW for solar cells. Last year, it put into operation a new 1 GW mono PERC cell fab at the site in Tongcheng, Anhui Province.

Who is Jetion Solar backed by?

And as backed by CNBM, Jetion Solar also provides global EPC service and project financing. Currently, Jetion Solar has a global production capacity of 2.5 GW with 5 manufacturing plants in both domestic and Thailand. Jetion Solar serves worldwide customers with high-quality products and professional services.

Where are Jetion Solar cells manufactured?

In response to the world-wide growth in solar power Jetion has imported industry leading manufacturing equipment from Germany, Italy and the United States and currently boasts four state-of-the-art solar cell production lines.

Is Jetion ready for expansion?

Jetion is well placed for future expansion with over 1 million square feet of land (including manufacturing, office and warehouse space).
