What is the NZX equity market?

The NZX Equity Market (NZSX) is the premier market for NZX's listed equities and funds in New Zealand and is home to some of New Zealand and Asia Pacific's most successful and dynamic companies.

What does NZX stand for?

New Zealand's Exchange (Māori: Te Paehoko o Aotearoa), known commonly as the NZX, is the national stock exchange for New Zealand and a publicly owned company. NZX is the parent company of Smartshares, and Wealth Technologies.

What does the NZX do?

It operates and regulates securities and derivative markets and provides trading, post-trading and data services for securities and derivatives, as well as the providing a central securities depository. The NZX is the only registered securities exchange in New Zealand and is also an authorised futures exchange.

What is the NZX 50?

The NZX 50 is a headline stock market index which tracks the performance of 50 largest and most liquid companies by free float market capitalization, listed on the New Zealand Exchange. It is a total return, modified market capitalization weighted index.

What is NZX clearing?

NZX Clearing was launched in 2010 to take over clearing and settlement operations. On 16 October 2002 the member firms of the New Zealand Stock Exchange voted in favour of demutualisation, and on 31 December 2002, NZSE became a limited liability company.

When did the New Zealand stock exchange change its name?

On 30 May 2003, the New Zealand Stock Exchange Limited formally changed its name to the New Zealand Exchange Limited, trading as NZX, and on 3 June 2003 listed its own securities on its main equity market. Mark Weldon was chief executive officer from 2002 to May 2012. Tim Bennett was CEO from May 2012 to 31 December 2016.

Since announcing Sun Exchange's pivot, we've engaged directly with many of you to address questions and concerns about your solar cells. In last week's blog post we answered some of the most common questions we've received and confirmed that a sale to a third party and payout for solar cell owners is the most likely scenario for the future of the solar project portfolio.

Located seemingly at the bottom of the world, next to Australia, New Zealand's seasons are opposite to most. Instead of June through August being the summer months, New Zealand enjoys summer in December through February. Also opposite to much of the world, the further north you head in New Zealand, the warmer it gets - albeit a few exceptions.
