What is New England Bess?

The New England BESS is being built through the support of the NSW Government's Emerging Energy Program. In 2023, ACEN Australia secured a 20 year Long Term Energy Service Agreement (LTESA) for New England Solar in the NSW Government's first renewable energy and storage auction.

What is the New England Bess project?

Currently supported by the NSW Government's Emerging Energy Program, the New England BESS project is a part of ACEN's broader strategy in Australia, where they are actively developing over 1 GW of projects.

What is a Bess & how does it work?

The BESS will be charged and discharged on a daily basis and designed to dispatch stored renewable energy at peak consumption hours to help meet the high demand during New South Wales' peak load hours while reducing the region's reliance on coal-fired power generation.

The Australian arm of Philippines-based energy company ACEN Corp and the subsidiary of Japanese investment giant Marubeni have signed a cooperation agreement for the joint development of the two-hour New England ...

Construction of New England Solar's utility Battery Energy Storage System (BESS) has reached a major milestone, with works set to start next week expanding the Uralla site's Transgrid switchyard. The switchyard ...

The BESS will become Saft's third utility-scale BESS in the New Zealand market. One of these is the 100MW/200MWh system provided to state-owned energy company Meridian Energy, set to be developed near New Zealand's northernmost city, Whangarei. Saft's track record in delivering BESS projects in New Zealand played into the reason why ...

The New England region of New South Wales is to host Australia's biggest battery yet, after renewables developer Acen Australia secured approval to boost the size of its New England solar ...

Under the agreement, Energy Vault will deploy a 50 MW / 100 MWh battery energy storage system (BESS) and a separate 150 MW / 300 MWh battery at the site of ACEN's multi-stage 720 MW New England solar project ...

The New England Jewish Academy is a preK-12th grade Orthodox Jewish day school that serves the Jewish communities in Greater West Hartford, Greater New Haven, and Western MA. ... In 2019, the Bess and Paul Sigel Hebrew Academy of Greater Hartford and the Hebrew High School of New England merged to create a vibrant, cornerstone preschool-grade ...

A 4.2 MW agrivoltaic solar project in Rockport, Maine, developed by BlueWave and owned by Navisun. Image: BlueWave / Navisun. Developer BlueWave talked Energy-Storage.news through the opportunities ...

Under the agreement, Energy Vault will deploy both a 50 MW/100 MWh BESS and a 150 MW/300 MWh BESS at ACEN Australia's 720 MW New England Solar, one of the largest solar projects to participate ...

It may be related to the two stages of New England Solar's construction, with 400MW already online and the remaining c.350MW under construction. Q1 2024 results The firm also released its financial results for the first three months of 2024, during which it booked US\$7.8 million in revenues mainly from BESS projects with utility NV Energy and ...

The New England BESS with its innovative inverter system is being built with the support of the NSW Government's Emerging Energy Program. The AU\$75 million (US\$49.8 million) programme provides grant funding to assist with the development of innovative, large-scale electricity and storage projects in NSW.. By reducing barriers to invest in emerging ...

"The construction of the BESS is a landmark project for the New England Renewable Energy Zone (REZ) and also the New South Wales economy," Northern Tablelands MP Adam Marshall said. Marshall said the BESS, which is critical in addressing the intermittency of renewable energy, was funded by an AU\$12.5m State Government grant.

ACEN Australia and Energy Vault to begin deployment of two battery energy storage systems (BESS), with a total capacity of 200 MW/400 MWh, at ACEN Australia's 720 MW New England Solar project

Transgrid Group's contestable business, Lumea, has signed an agreement with ACEN Australia to connect a new Battery Energy Storage System (BESS) as part of the New England Solar Farm project. Stage one of ACEN Australia's \$768 million project is currently under construction near Uralla in the proposed New England Renewable Energy Zone (REZ).

13 March 2024, NSW, Australia - ACEN, through its wholly owned subsidiary, ACEN Australia, and SmartestEnergy have signed a Power Purchase Agreement (PPA) to offtake renewable electricity generated from Stage 1 of ACEN Australia's New England Solar project in NSW. The eight-year agreement provides SmartestEnergy with an offtake of 25% of the output of the...

"The construction of the BESS is a landmark project for the New England Renewable Energy Zone (REZ) and also the New South Wales economy," Northern Tablelands MP Adam Marshall said. Marshall said the ...

The agreement commits the parties to work together on the delivery of the New England 400 MWh BESS. The 50-50 partnership has a projected investment amount of AU\$ 250 million with a target completion by 2025. Moroo Shino, Marubeni Asian Power Singapore president and CEO, added: "It is our pleasure to sign

the MoU with ACEN Australia in the ...

Get all the latest news on New England Solar Stage 1 operations and Stage 2 design and construction from our regular project updates. The updates are published each month in the Uralla Wordsworth and can also be found here on our website.

Updating the New York Fire Code will increase the safety and standardisation of installations in the state, Energy-Storage.news has heard. ... and emergency response to ensure the greatest level of safety for BESS across the New York State," the company said. ... Informa PLC's registered office is 5 Howick Place, London SW1P 1WG. Registered ...

The Australian arm of Philippines-based clean energy company AC Energy has commenced construction of a 50MW/50MWh battery energy storage system that will be connected to its 720MW New England Solar Farm being developed near Uralla in ...

The developer recently filed permitting documents for its Ward Hill BESS facility with the Haverhill Conservation Commission and presented plans for the project with ISO New England's Reliability Committee last month. ... Hecate Energy first filed an ISO New England interconnection request for the Ward Hill project in April 2022, which is ...

Construction began in 2021 on New England Solar Farm near Uralla, which will pair 720MW of solar PV with a 50MW/50MWh BESS, with further details given in a progress update offered in March this year. CWP Renewables has approval for another NSW BESS project at a wind farm, this time a 150MW battery storage system for connection at Uungula, a ...
