The heat recovery ventilation unit is used in houses with areas up to 200 m². The NIBE ERS 20-250 is designed for installation with a NIBE ground source heat pump or a NIBE air/water heat pump for an integrated heating, hot water and ventilation system. The heat recovery ventilation unit is easily controlled by the heat pump.

Our installers will assist you in choosing the right NIBE system to meet your heating needs, ensuring your heat pump is installed correctly so it can perform to its full potential. ...
