

## Nicaragua delta energy group

## Who is Delta Energy?

Delta Energy is a company with great potential and great purpose. Our vision is to establish ourselves as the world leader in recovering specialty chemicals from end-of-life tire rubber.

## Who is Delta Energy Group LLC?

While at Bridgestone, Bobby was introduced to Delta-Energy Group to provide engineering support to achieve sustainable commercial scale. Delta Energy Group LLC is privately held and principally owned by Castleton Commodities International and Bridgestone Americas.

## What makes Delta Energy a sustainable company?

Today, all the shareholders support the growth of Delta Energy as the industry leader to produce sustainable materials for the tire, rubber, and chemical industries. Delta-Energy converts end-of-life tires into specialty oils and recovered carbon black. Our process generates 85% less CO2 emissions than production of virgin carbon black.

## Is Delta Energy ISO 9001 certified?

Delta Energy proudly maintains our ISO 9001:2015 certification. Robert has a comprehensive background in tire and carbon black manufacturing. He attained 20 years of experience in a variety of roles with Goodyear Tire and Rubber Company, the largest tire producer in the United States.

## Is biomass a source of electricity in Nicaragua?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Nicaragua: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.
