

Oman automated vertical storage

Why should you choose Modula automatic vertical storage solutions?

Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

What is a Modula automatic vertical tray warehouse?

Modula automatic vertical tray warehouses allow you to store goods in an clean, tidy, safe and fast-moving system, reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

What is a modular vertical storage solution?

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options.

How can vertical solutions save your warehouse floor space?

Vertical solutions can save up to 60% of your warehouse floor space and dramatically increase the pace of accessing and retrieving items from storage. Our specialists will be happy to develop a solution that meets your specific storage and intralogistics requirements. Contact us for more information and details.

What is a modular vertical lift module?

Maximize the performance of every inch of your floor space with Modula Vertical Lift Modules. Modula Vertical Lift Modules (VLMs) are fully automated vertical storage systems that take up a minimum footprint by utilizing the ceiling height available.

What is an automatic vertical tray warehouse?

The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods. Instead, the products are brought directly to the picking bay.

Vertical Lift Module for Automated Storage. The Shuttle[®]; XP Vertical Lift Module (VLM) is an enclosed system that meets a broad range of storage and retrieval applications in manufacturing, distribution, retail and warehouse operations. It ...
