

Orca energy Uganda

What is Orca Energy?

Orca Energy Group, Inc. is a company that provides natural gas to the power and industrial sectors in Tanzania and focuses on the development and production of proven gas resources. It was founded on April 28, 2004 and is headquartered in Road Town, British Virgin Islands.

Does Orca supply natural gas?

In 2009 Orca commenced a compressed natural gas pilot project to supply gas to converted vehicles, as well as off network business that wanted gas for heating or cooking. As demand for gas continues to increase, the Company is actively evaluating options to increase and sustain supply to support the nation.

What is Orca doing now?

In the long term, subject to 3D seismic results and contractual conditions, Orca aims to increase its sales volumes and expand its industrial gas distribution to displace higher carbon based and more expensive energy alternatives. Today, Orca is focused on sustaining current demand to support critical power generation and industrial demand.

What does Orca do?

Orca aims to have a positive impact on its country of operations, its people and the population whom we operate alongside, while reliably supplying natural gas to support Tanzania's power and industrial growth in a bid to help the nation transition towards a lower carbon economy.

What is Orca Energy doing in the Philippines?

Orca Energy, in partnership with Emerging Power Inc, a renewable energy company majority owned by Nickel Asia Corporation, is now developing the Biliran, Leyte geothermal reservoir in the Philippines. This project, one of the most sophisticated in the country, has an estimated 270 MW of steam.

What is Orca Energy?

Orca Energy is a company dedicated to harnessing geothermal energy to meet Asia's demand for cleaner, sustainable energy. They have successfully built China's largest geothermal business and the world's largest district heating company.
