Is solar a good idea for Vanuatu?

Antony Garae, Director of the Vanuatu Department of Energy, said this project is a great boon to his country, where 80 percent of rural residents lack electricity. "Solar is the best solution for these areas not only because of its obvious contributions to climate change mitigation but because fuel is costly and difficult to transport," he said.

Will a new solar micro-grid change Vanuatu's lives?

(Photo: Ian Iercet) On the remote island of Malekula, the second-largest island in Vanuatu, a new solar micro-grid is changing the lives of over 2,800 people - boosting local development while contributing to Vanuatu's sector specific target of transitioning to close to 100 percent renewable energy for electricity by 2030.

Does Vanuatu have a Power Cooperative?

Throughout the first year of operation, the local energy service company will provide free maintenance and train members of the local communities to operate and maintain the power station. "This is the first-ever power cooperative for Vanuatu's last mile communities.
