

Does Albania have a power supply security problem?

Albania is a net importer of electricity; power supply security is a challenge. Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable.

What is the role of Kesh in Albania's energy system?

By operating 79 per cent of the generation capacity in the country, KESH supplies about 70-75 per cent of customers' demand for electricity, provides the energy needed to cover losses in the transmission grid and guarantees the security of the Albanian energy system through balancing energy and auxiliary services.

Will Masdar build a 'gigawatt-scale' renewable power portfolio in Albania?

Masdar and the Albania Power Corporation (KESH) have announced plans to build a "gigawatt-scale" renewable power portfolio in Albania.

By joining the Albanian Bidding Zone, AXPO Albania strengthens the collaborative spirit of our energy sector and contributes to the continuous development of our markets. We look forward to AXPO Albania actively contributing to our goals of fostering innovation, driving progress, and ensuring the stability and security of power trading.
