Developed in collaboration with CSIRO, our solar battery range is engineered for maximum performance, reliability and service life. Our solar solutions, including the industry leading SunGEL, are capable of enduring extreme and harsh conditions.

High Frequency Switched-Mode Chargers use transistor controls and an advanced charge algorithm to better communicate power requirements to the battery resulting in greater AC Efficiency. This gives the battery a cooler recharge profile allowing for more energy to be absorbed by the battery and a longer life. They also offer a smaller footprint.
