The PowerBox Pioneer is the latest development of a 14-channel power supply unit without voltage regulation, designed for HV servos. Since the unit has no voltage regulators, nor the large heat-sink surfaces required for them, it offers ultra-compact dimensions. Even so, the Pioneer still provides redundancy, as is the standard for all power supply units made by PowerBox-Systems.

The SparkSwitch RS is a compact, high-performance ignition switch featuring rotational speed (RPM) monitoring and optional voltage regulation for 6V ignition systems. item. 6600 Features-Optical separation between the receiving system and the ignition system-External LED switch status indicator-Regulated (6.0V) or pass

Powerful dual battery power supply with 7 channels, voltage regulators and telemetry. Item: 4250 Product description The PowerBox Evo is an ultra-compact dual power supply featuring 7 channels, regulated output voltage and ...

PowerBox-Systems manufactures high-quality power supply equipment, and has now been working for more than a year on its own independent radio control system. On the face of it we may seem a little tardy in introducing a new 2.4 ...

Premium servo extension leads are manufactured using the renowned PowerBox Premium cable. The cable is extremely flexible, and is made up using very thin individual strands in order to pass the maximum current through the given cross-sectional area of 0.35mm²; ... PowerBox-Systems Americas Corp. 2220 CR 210 W- Suite 108-515 St. Johns, FL ...
