

What is powerup energy technologies?

PowerUP Energy Technologies mission is to improve sustainability and reliability of the energy systems. With a vision for a cleaner tomorrow, PowerUP develops and manufactures high-quality, sustainable energy generation products. Boasting 20 years of experience in fuel cell technology, we stand as an innovator in the fuel cell technology market.

Who is powerup fuel cells?

PowerUP Fuel Cells OÜ is a producer of the best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. The generators have many use cases in different industries. Our development roadmap envisages a full product family of fuel cell based electric generators that extend from 200 W up to 15 kW. PowerUP's goal

How does powerup generator work?

Clean power, green future. PowerUP's generators are based on proton exchange membrane (PEM) fuel cells, which makes power generation efficient and environmentally friendly. Our fuel cell based generators use hydrogen gas as fuel. The chemical energy of the fuel is directly converted to electrical energy.

Can I share my personal information with PowerUP energy technologies?

Never share sensitive information (credit card numbers, social security numbers, passwords) through this form. This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply. PowerUP Energy Technologies provides hydrogen fuel cells generators, a sustainable innovative source of energy.

Where is powerup fuel cells OÜ located?

PowerUp Fuel Cells OÜ is located in Tallinn, Harjumaa, Estonia. How much funding has PowerUp Fuel Cells OÜ raised to date? PowerUp Fuel Cells OÜ has raised EUR650K. When was the last funding round for PowerUp Fuel Cells OÜ? PowerUp Fuel Cells OÜ closed its last funding round on Apr 1, 2020 from a Seed round.

The aim of this project is to develop new and innovative bipolar plates (BPP) and membrane electrode assembly (MEA) for PowerUP's air cooled fuel cell stack. Project is in a partnership with a France company HYCCO who will develop novel and ultra-thin carbon fiber based BPPs.

PowerUP Energy Technologies" UP3K hydrogen-powered generator represents a significant step towards resilient and sustainable power generation. May 10, 2024. PowerUP Energy Technologies Introduces a First Ever Fuel Cell & Li-ion Super Battery Hybrid Solution. Dec ...

PowerUP Energy Technologies is actively seeking funding, targeting a total of EUR7 million to fuel

expansion into the US and Asia, alongside increased production capacity. While most current investors hail from Estonia, the company is diversifying its funding sources by exploring opportunities in Europe and funds.

Seller is PowerUp Fuel Cells OÜ, a company registered in the Republic of Estonia, under registry code 14110442 (Seller, we, us or our). Our contact information is as follows: PowerUp Fuel Cells OÜ, Akadeemia tee 23, Tallinn 12618, Estonia e-mail: info@powerup-tech phone: +372 5036963 Website (Website) 1.3.

"PowerUP Energy Technologies instead, is implementing the clean solution described across its whole product range exactly to cover a wide variety of use cases. The just-launched UP400 is just the beginning, as it testifies the high ...

PowerUP Fuel Cells OÜ toodab vesinikul töötavaid elektrigeneraatoreid ja prootonvahetusmembraaniga kütuseelemente. Ettevõtte pakub kaasaskantavaid ja keskkonnasõbralikke energialahendusi erinevatele turusegmentidele, millest hilisteks on telekommunikatsioon, ehitus, tervishoid, valitsuslikud organisatsioonid, julgeolek, jahid, ...

PowerUP produces hydrogen fuel cell-based generators. These smart generators are sustainable, compact, lightweight, noise-free, odourless and require minimal maintenance. ... Stay tuned about the latest energy tech trends, industry news, events, and more. Don't miss out and subscribe to our bi-monthly newsletter!

EXPLORE powerupnigeria brings us more opportunities on how to source for a better and modernized means of electricity in Nigeria. Get Started Our Services Nigerian Power Source Nigeria is the largest economy in sub-Saharan Africa, but limitations in the power sector constrain growth. Nigeria is endowed with large oil, gas, hydro and solar resources, and it

PowerUp Energy Technology. Keiretsu Forum Nordics December 4, 2021 Portfolio company, VCI PORTFOLIO. PowerUP Fuel Cells OÜ is a producer of the best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. The only company currently producing and selling innovative hydrogen fuel cell based portable ...

"PowerUP Energy Technologies instead, is implementing the clean solution described across its whole product range exactly to cover a wide variety of use cases. The just-launched UP400 is just the beginning, as it testifies the high volume of orders the company has already received," Kruusenberg says. Smaller (200W) and larger (1000W ...

With an aim to obliterate these hurdles to seamless electricity generation and storage, Tallinn-based PowerUP Energy Technologies is offering an exceptional line of silent, odorless, and lightweight hydrogen fuel cell smart electric generators that are far more efficient and sustainable than their traditional counterparts.

Member - PowerUP Energy Technologies OU. Go back. Developing innovative fuel cell based portable generators for use in camping, sailing, telecom, military and much more. ... With more than 15 years of experience with fuel cell technology, PowerUP is an innovator in the fuel cell technology market. We are deeply focused in making the hydrogen of ...

Project update 2022. During the last quarter of 2022 Beyonder has finalized this project's first version of high-power energy storage cells, which will soon be ready for shipment to Nordic Batteries to be included in the first proof of concept ...

Dr. Ivar Kruusenberg, the Founder and CEO of PowerUP Energy Technologies, has big ambitions for hydrogen cabinets. "We're planning to open more cabinets not only in Estonia, but in Finland, Sweden, France and maybe in England. This is one of the first steps: to open this [Estonia's] first, see how it works and then get the next cabinets ...

The purpose of the project is to develop and assemble in co-operation with Beyonder AS and Nordic Batteries AS a 10,000 W proton exchange membrane (PEM) fuel cell based portable generator, UP10K Pro, which will provide clean energy to a number of industries that require uninterrupted power supply, but is mainly targeted to the construction and mining industry.

About PowerUP Energy Technologies PowerUP Energy Technologies is an Estonia based cleantech start-up that produces best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. PowerUP's technology is based on their co-founders' 15 years of scientific research in the field of fuel cells and energy ...

PowerUP Energy Technologies | 5,287 followers on LinkedIn. Innovative hydrogen fuel cell based back-up generators | PowerUP provides clean and portable energy by delivering a hydrogen fuel cell backup generator solution, which can be used for various technologies - yachts, boats, recreational vehicles and many more.

PowerUP Energy Technologies, formerly specializing in portable hydrogen fuel cell generators, announces a strategic pivot to offer a revolutionary hybrid soluti... For over 25 years, FCW has been the go-to source for news, information, and analysis. Join our community of industry leaders and innovators. Become a Member |

About PowerUP Energy Technologies PowerUP Energy Technologies is an Estonia based cleantech start-up that produces best-in-class hydrogen fuel cell based electric generators and proton exchange membrane ...

PowerUP Energy Technologies is committed to deliver renewable energy technologies to the market. We are currently concentrating on the production and development of hydrogen fuel cell-based ...

This 400 W generator is designed to fit your needs and offer the ultimate plug & play solution. Easy to use with a smart and compact design, the UP400 gives you energy independence. Wherever you are, this unit will

allow you to charge your laptop, smartphone, radios, lights, GPS and many other devices.

Find investment information and connect with PowerUp Fuel Cells OÜ, a Tallinn, Estonia based Industrial/Energy startup. Start a Company. Grow Your Startup. Raise Capital. Sign In. Get Started. Start a Company; Grow Your Startup ... Industry Industrial/Energy Location Tallinn, Estonia Currency EUR Founded September 2016 Employees 6 ...

PowerUP Energy Technologies is an Estonian cleantech start-up that produces best-in-class hydrogen fuel cell-based electric generators and proton exchange membrane fuel cells. PowerUP's technology is based on their co-founders' 15 years of scientific research in the field of fuel cells and energy technologies.

DigiPRO -- Eesti idufirma PowerUP Energy Technologies asutaja: ... PowerUP Fuel Cells OÜ is a producer of the best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells. The generators have many use cases in different industries. Our development roadmap envisages a full product family of fuel cell based ...

PowerUP Energy Technologies partners with Meraki Green Development for Hydrogen Fuel Cell Smart Electric Generators in Greece and Cyprus New Partnership Read more. Jun 30, 2022. PowerUp is excited to announce a partnership with AS Labruna! PowerUp has signed a distribution agreement with AS Labruna which will serve as Italy's gateway to ...

Mark Jardine, Managing Editor of Sail-World , talks to Dr. Ivar Kruusenberg, CEO and founder of PowerUP Energy Technologies, at METSTRADE 2021 to find out more about their fuel cell generators which use pure hydrogen gas as fuel, work silently, generating electricity and producing water as the only by-product.
