PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, ...

PSW Power & Automation has signed a turnkey contract for two high voltage shore power systems, 8MVA and 16MVA, with Ports of Stockholm. The delivery includes design and manufacture of the shore power system, high voltage electrical infrastructure and raising the architectural designed buildings on site.

The PSW-Series is a single-output multi-range programmable switching DC Power Supply covering a power range up to 1080W. This series of products include eighteen models with the combination of 30V, 40V, 80V, 160V, 250V, and 800V rated voltages and 360W, 720W and 1080W maximum output powers.

The centrepiece of this project is PSW's state-of-the-art BQ-G battery system, specifically designed for grid-scale applications. With a capacity of 4MWh, the battery system is engineered to meet the demands of large-scale energy storage, ensuring the seamless integration of renewable energy sources such as wind and solar.

Our products are well accepted in China, North America and Europe markets. Over 90% of our products are exported to international markets. As a proof, there are huge number of electric shopping carts running in thousands of WalMart superstores across USA, are equipped with our patented hub motors with energy saving and feature rich functions.

To solve this grid imbalance PSW Power & Automation has developed a solution that provides stability in the power grid. PSW's BQ-G is a modular energy storage system that can, in addition to providing fast response, be used for other grid services and/or energy trading. "We are honoured to be the trusted supplier to Ellevio Energy Solutions AB.
