

Puerto Rico energy energy

What is the Puerto Rico energy resilience fund (PR-ERF)?

On February 21, 2023, the Grid Deployment Office launched the Puerto Rico Energy Resilience Fund (PR-ERF) to support Puerto Rico's grid resilience efforts and achieve the goal for the commonwealth to meet 100% of its electricity needs with renewable energy by 2050.

Why does Puerto Rico need a better energy system?

Record-setting power outages. High energy costs. These are some of the galvanizing forces that unite the people of Puerto Rico in their commitment to achieve a more resilient, reliable, affordable energy system. Puerto Rico hit a deadly record in 2017, when back-to-back hurricanes destroyed around 80% of the island's electric grid.

What is the Puerto Rico PR-ERF?

In December 2022, President Biden signed the FY 2023 Consolidated Appropriations Act into law, which included \$1 billion for the establishment of the PR-ERF to drive key investments in renewable and resilient energy infrastructure in Puerto Rico. On February 21, 2023, the Grid Deployment Office officially launched the fund.

Will Puerto Rico's solar power system rebirth?

The degree of distributed solar and storage expected in Puerto Rico is an amount that has not been attempted elsewhere. The journey of Puerto Rico's power system from widespread wreckage to renewable and resilient rebirth could be an enduring example for others to follow.

What can Puerto Rico do if a hurricane hits the grid?

When hurricanes hit the grid, all energy system resources—including distributed and utility-scale renewables and energy storage—should participate in the recovery process. To make the PR100 findings more actionable for Puerto Rico, the team created an implementation roadmap with considerations for how Puerto Rico can reach its objectives.

What happened to Puerto Rico's electric grid in 2017?

Puerto Rico hit a deadly record in 2017, when back-to-back hurricanes destroyed around 80% of the island's electric grid. This was the longest blackout in U.S. history—taking 328 days to get power fully restored—and resulted in more than 3,000 lives lost. In the face of these challenges, the people of Puerto Rico want to rebuild differently.

Energy Snapshot - Puerto Rico Author: Victoria Healey, Laura Beshilas, and Kamyria Coney Subject: This profile provides a snapshot of the energy landscape of the Commonwealth of Puerto Rico - a U.S. territory located about 60 miles east of the Dominican Republic and directly west of the U.S. Virgin Islands. Created Date: 5/4/2020 1:31:02 PM
