Can solar panels help a low-income Puerto Rican household?

Funding will Support Solar Panels for up to 40,000 Low-Income Households and Create Local, Good-Paying Jobs; Part of a \$1 Billion Effort to Increase Resilience for Puerto Rican Households

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

What does PR-ERF funding mean for Puerto Rico?

The first tranche of PR-ERF funding, up to \$440 million, will help lower energy bills for 30,000-40,000 single-family households in Puerto Rico, improve household energy resilience, and keep the lights on during extreme weather events.

Why did Puerto Rico get a power outage?

The announcement comes as the U.S. territory continues to struggle with chronic power outages that have worsened since Hurricane Maria pummeled the island as a powerful Category 4 storm in 2017, razing the electric grid. The outages also are blamed on a lack of maintenance and investment in its electric grid for decades.

These installations will support DOE's Programa Acceso Solar, connecting up to 30,000 low-income households across Puerto Rico with residential rooftop solar and battery storage systems.. Topic Area 2 Selectees: Community-Sponsored Residential Deployment (up to \$40 million, announced 11/2/2023) The following qualified nonprofits and cooperatives will also ...
