

Is there a market for solar energy in Rwanda?

Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy.

How many solar home systems are there in Rwanda?

Approximately 50,000 solar home systems have been installed in Rwanda over the last 3 years.

How many solar power plants are in Rwanda?

Currently, Rwanda's total on-grid installed solar energy is 12.050 MW originating from 3 solar power plants namely Jali power plant generating 0.25MW, Rwamagana Gigawatt generating 8.5 MW, and the Nasho Solar plant generating 3.3 MW.

Is Rwanda a significant source of solar energy?

Rwanda has a moderate source of solar energy, with an average solar radiation of 4 - 6 kWh per square meter per day. It has had a useful experience with the 250 kW Kigali solar project and solar water heaters. However, Rwanda's energy mix is currently dominated by biomass, which accounts for about 85% of primary energy use.

How many Rwandans are accessing electricity through off-grid solutions?

As a result, today, 14% of Rwandan households are accessing electricity through off-grid solution, mostly solar home systems.

Does Rwanda have an off-grid Solar System?

Rwanda has several off grid solar companies, such as Arc Power Ltd., Bboxx, MySol and SoEnergy which sell electricity to the population via either a small distribution line or an isolated single-family dropout package composed of a PV module, control unit and customised loads.
