The economy of the Commonwealth of the Northern Mariana Islands(CNMI) has been on the rebound in the last few years, mainly on the strength of its tourism industry. In 2016, the CNMI's real GDP increased 28.6% over the previous year, following two years of relatively rapid growth in 2014 and 2015. Chinese and Korean tourists have supplanted ...

Current legislation exempts energy storage assets from grid fees if they go online before August 2026, but the amendments extend that deadline by three years to August 2029, the company's senior manager for policy and market development said. Since developing, permitting and building projects takes "easily three years" the change is ...

With the help of 60 battery systems, the new type of storage facility will be able to temporarily store around 4.5 megawatt-hours of electricity on the site of the RWE pumped storage power plant at Lake Hengstey. According to the RWE announcement, the electric car batteries come from development vehicles for the e-tron quattro.
