Where is the new solar energy plant located in Burkina Faso?

Located some 250km south east of the nation's capital city of Ouagadougou, near the town of P&#226;, the new solar energy plant will supply all the electricity it produces to Burkina Faso's national power utility, La Soci&#233;t&#233; National D'&#233;lectricit&#233; Du Burkina Faso (SONABEL).

Why is Burkina Faso launching a solar power plant in Komsilga?

Loading... In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic growth and improved access to electricity.

Will a 50 MWp solar power plant bolster Burkina Faso's electricity supply strategy?

In a pivotal move to bolster Burkina Faso's electricity supply strategy, the Minister of Energy, Mines, and Quarries, Simon-Pierre BOUSSIM, and Serge CONSEIGA, General Director of Energie Plus, sealed an agreement for the construction of a 50-megawatt peak (50 MWp) solar power plant in the commune of Komsilga, Burkina Faso.

Why does Burkina Faso need electricity?

The country has one of the world's lowest rates of electrification. Because of a shortage of installed energy generation capacity, Burkina Faso needs to import electricity from neighbouring states. Urbanisation, structural changes to the economy and recent strong GDP growth have increased demand for energy.

Burkina Faso's power sector is characterized by a high reliance on expensive thermal capacities and imports. While the target is to achieve universal access to electricity by ...

Mohan Energy Corporation Pvt. Ltd. has been working for last 15 years in the Supply, Erection & Commissioning of Power Generation Equipment and Auxiliaries. ...
