

Saint Barthélémy basquevolt battery

Is basquevolt a solid-state battery?

Basquevolt, the Basque initiative to make solid-state batteries, has been introduced. It's expected to have a production capacity of 10 GWh by 2027

Could basquevolt be Europe's first solid state battery Gigafactory?

Basquevolt, Europe's first solid state battery gigafactory, is a huge challenge yet an even bigger opportunity, says Basque energy storage research institute head Nuria Gisbert. Last Updated on Dec 3, 2023 by About Basque Country Lagun iezaguzu aboutbasquecountry.eus mantentzen!

What is basquevolt?

BASQUEVOLT. BASQUEVOLT aims to become the European leader in the next generation of solid-state lithium batteries. Our technology will make possible the mass deployment of electric transportation, stationary energy storage and advanced portable devices.

How can basquevolt battery cells reduce battery pack costs?

while significantly reducing overall battery pack costs. BASQUEVOLT battery cells can be produced through a more efficient less complex process, creating a 30% reduction in the capital investment needed per GWh in a gigafactory and 30% less energy

Why are batteries made in the Basque Country?

In sum, the batteries made in the Basque Country will offer greater energy density at a lower cost, which will allow for the manufacture of vehicles with greater range and a lower price. These are the two key elements necessary to guarantee a "comfortable" transition from fossil-fuel vehicles to electric ones.

When did basquevolt launch its innovation center?

June 23, 2023: Basquevolt, the solid state lithium battery developer and manufacturer, inaugurated its innovation center in mid-June in an official ceremony presided over by the president of the Basque government, Iñigo Urkullu and the company's investment partners.
