

MasTec is one of the nation's top power plant and renewable energy construction companies, specializing in building and engineering of natural gas power plants, alternative fuel power plants, wind farms and solar energy facilities.

US-based renewable energy construction firm MasTec has agreed to acquire Infrastructure and Energy Alternatives (IEA) in a cash-and-stock deal valued at around \$1.1bn. Under the terms of the agreement, MasTec will purchase all of IEA's outstanding shares for \$14 a share.

Through their subsidiaries Wanzek Construction and MasTec Power Corp., MasTec is capable of providing design-build, EPC, and construction services for a variety of clients in the utility and private power producing markets. MasTec builds pipelines for the transportation of crude oil and natural gas.

The deal is intended to significantly enhance MasTec's clean energy and infrastructure segment, as well as its clean energy maintenance service offerings. It will also increase the company's non-union craft labour and equipment resource capacity.

MasTec takes early contractor involvement to a new level of support. We provide our clients access to dedicated engineering and preconstruction support experts during the project development stage and offer flexibility and scalability in project delivery.

MasTec Advanced Technologies is the leader in last mile fulfillment services for the deployment and installation of technology and IoT devices. MasTec provides turnkey solutions for water & sewer, and distribution transmission systems, including treatment plants and facilities. At MasTec, safety isn't just a priority, it's a core value.
