A pair of oil and gas giants, Algerian state-run company Sonatrach and Italy-based firm Eni, have inaugurated a 10MW solar PV project to power an oil field in Bir Rebaa North (BRN) in Algeria.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

PV Tech revealed in November 2018 that EGAT was planning to facilitate 1GW of hybrid floating solar-hydro projects across eight dams throughout Thailand. This was later increased to 16 solar farms ...

A 58.5MW floating PV plant in Thailand, said to be the largest install of its kind in the country, has been connected to the grid, according to inverter and floating solutions supplier Sungrow.

The project has around 500,000 solar PV modules installed. Image: Arava Power. Israel-based developer Arava Power has confirmed that its 270MW SUNRAY solar PV project in Ulvade County, Texas, has ...

Effective immediately, Residential Solar PV that are less than 15 KWDC and ESS that are 80 KWH (or less) and are installed in a detached garage, shed, or other accessory structure, or installed on the exterior of a structure: no plans are required when the project complies with the provided checklist and they will be issued Over-the-Counter. If you would like to turn in plans ...

PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector. The event will gather the key stakeholders from solar developers, solar asset owners and investors, PV manufacturing, policy-making and all interested downstream channels and third-party entities.

On August 15, Tsumkwe, a small village in Northern Namibia was able to receive its first, around-the-clock electricity supply in three years thanks to a hybrid solar system completed by juwi Solar ...

Saint Helena hybrid solar pv

PV plants are best at generating electricity during the day, while CSP plants are best at generating electricity at night. By combining PV and CSP, hybrid plants can generate reliable electricity around the clock. Hybrid solar ...
