

What is refustore 88K?

REFUstore 88K The REFUstore 88K is based on the new inverter platform from REFU. This inverter is specifically designed for all high voltage batteries. With a rated power of 88 kW at 400V, it is perfectly suited for commercial behind-the-meter applications such as self-consumption optimization or peak-shaving.

Why should you choose refustore 88K?

Maximum Performance: The REFUstore 88K is highly efficient over a wide range of operation maximizing return on investment. With fast response times, the inverter achieves high control performance, making it suitable for time-critical applications. **Design Flexibility:** The REFUstore 88K allows different communication protocols like Sunspec/MESA.

Can refustore 88K be integrated with existing PV systems?

Future Proof: The AC-coupled REFUstore 88K can be easily integrated with existing PV systems. The highly modular solution allows it to be used in systems from 88 kW up to MWs in size to meet the demands of both energy and power applications.

Kérdése van a REFU termékével kapcsolatlan? Sok kérdésre választ talál a kézikönyvben és a garanciális feltételek között. Ha nem találja kérdésére a választ a kézikönyvben, kérjük, használja a szerviz?rlapot:

With the REFUstore 88K we can take on the one hand this development into account, and on the other hand the battery inverter convinces with its wide voltage range and the possibility to realize 2nd life applications. For us, it is a real all-rounder that ...
