

However, the novel and stable electrocatalyst developed by SeeO2, can be used in both the oxygen-rich environment of the oxygen electrode anode, producing oxygen, and at the CO<sub>2</sub> / steam environment of the cathode, producing H<sub>2</sub> ...

SeeO2 Energy creates symmetrical electrolysis cells based on proprietary electrocatalysts. Their transformative technology captures carbon emissions and economically converts CO<sub>2</sub> into valuable chemical building blocks like CO, ...

Maggie has a BSc in Geology (University of Calgary 1981) and worked as a resource explorationist in both mining and oil and gas. She later worked as an Innovation and Technology Scout for the oil sands with an emphasis on step-change and game-changing technology possibilities for reducing environmental footprint and energy intensity, and as "Future Girl" ...

SeeO2 Energy Solutions; Our Team; Key Partners; News and Achievements; Gallery; Contact; Search; Search Submit. Kevin McGuinness Home &#187; Technical Team &#187; Kevin McGuinness. Research Scientist. Kevin graduated from Dalhousie University in 2021 with a BSc in Chemistry, minors in Computer Science and Mathematics, and a Certificate in Data ...

With most energy being generated from fossil fuels, the release of carbon dioxide (CO<sub>2</sub>) was seen as an inevitable side effect of producing enough energy to sustain the incredible, and rising, rate of human consumption. SeeO2 saw a future in which CO<sub>2</sub> could be collected, broken down and used as part of a range of chemicals. SeeO2 Energy Inc ...

SeeO2 Energy creates symmetrical electrolysis cells based on proprietary electrocatalysts. Their transformative technology captures carbon emissions and economically converts CO<sub>2</sub> into valuable chemical building blocks like CO, syngas, methane, and oxygen. ... Energy innovation in your inbox Stay tuned about the latest energy tech trends ...

SeeO2 Energy Inc. is a company focused on efficiently converting carbon dioxide (CO<sub>2</sub>) into marketable and clean value-added fuels and chemicals using reversible fuel-cell technology. Traveling, pitching, ...

SeeO2 Energy has developed a high temperature electrolyzer that uses CO<sub>2</sub> from an industrial company's waste stream and converts it into carbon monoxide, hydrogen, oxygen or syngas, all of which can be used downstream or sold for profit. HEADQUARTER. Calgary, Canada. LEARN ...

Previously, Adrian served as Chief Technology Officer at Plug Power, successfully leading its industrial fuel cell product development and commercialization efforts. Adrian received a Master's of Applied Science

## Seeo2 energy Kiribati

degree focused in Energy Systems Degree from the University of Victoria.

Chris is currently the Managing Director and President of TDK Canada. Chris leads this R& D Team in Calgary, Canada, towards creation and design of next generation navigation software for improved positioning of consumer devices and autonomous driving platforms.

Mark has over 30 years of experience in energy industries, including significant oilsands project experience as well as early stage technology commercialization. Previously he has held a variety of senior executive positions, primarily leading subsurface, facility and operations teams with Baytex Energy, Sunshine Oilsands Ltd., Laricina Energy ...

Mauris ut sollicitudin quam. Sed vel viverra lacus. Nam eu leo eu purus luctus eleifend at at leo. Donec ut tellus a odio mattis vestibulum. Aenean finibus nunc ut nunc porttitor placerat. Curabitur diam quam, rhoncus vitae pulvinar ut, consectetur sed arcu. Sed ultricies, mauris sit amet posuere hendrerit, tellus neque congue lectus, non auctor

Paul Addo, co-founder of SeeO2 Energy, is developing a patented technology that converts GHG emissions at industrial facilities to fuels. The company's technology transforms carbon dioxide - a greenhouse gas - into useful industrial gases like carbon monoxide and syngas, which is used in plastic, chemical and metal processing.

Suspendisse potenti. Morbi pretium mauris leo, eu dignissim ante pulvinar vitae. Nam et aliquam quam, eu ullamcorper mi. Mauris est augue, feugiat vitae rutrum bibendum, venenatis vitae quam. Mauris dignissim nibh sit amet tortor auctor, ut dictum augue feugiat. Fusce mauris turpis, pharetra id tincidunt in, sagittis quis felis. Sed accumsan porta sapien, sed malesuada
