The African Development Bank's \$25 million loan empowers Seychelles to achieve 100% renewable energy by 2035. This initiative fosters job creation, community engagement, and sustainable practices in response to climate change. ... This funding is intended to support the development of sustainable energy solutions, which are vital for small ...

This brings more than just an environmental impact. As the cost of fossil fuels has soared on the global market in recent months, the Seychelles (like other energy importers) has faced a rising fuel bill. Added to this is the cost of other basics necessities. Seychelles relies on imported food, which accounts for about 70 percent of food ...
