

# Slovenia avancis solar panels

Who makes Avancis solar panels?

AVANCIS develops & produces premium solar modules & "Designed & Made in Germany". Highest quality as well as many years of expertise in coating & heat treatment of glass characterize the high demands on engineering, efficiency & design standards.

What makes Avancis solar panels special?

"The special Avancis color technology enables dynamic coloring and thus an interplay of light and color, and the matt, noble surface creates an architectural highlight." Avancis has developed a high-efficiency solar panel with a CIGS absorber, sodium-based post-treatment, and cadmium-free sputtered zinc oxysulphide buffer.

Where is Avancis based?

The panel was made at its research center in Munich, Germany. Avancis has been part of Chinese state-owned CNBM since 2014. Its head office is located in Torgau, Germany, with additional locations in Munich and Ochang, South Korea. This content is protected by copyright and may not be reused.

## Slovenia avancis solar panels

Avancis PowerMax&#174; SMART are frameless CIS solar panels that can be safely and easily attached using an intelligent mounting profile. The two rear-mounted steel support profiles (backrails) allow intelligent mounting via a clamp, which is not applied to the front glass of the glass-glass modules.
