Incite Energy "s electrical engineer, Matias Valdes and Director of Decarbonisation, Kody Ponds are working alongside Norfolk Island Regional Council to carry out commercial survey and ...

Effective energy management is more crucial than ever, especially in modern smart homes. With the growing adoption of solar power and renewable energy sources, rising energy prices, and the use of heat pumps, heating boilers, electric vehicles, and other high-power appliances, managing energy consumption has become an essential aspect of modern homes--and a significant ...

Norfolk Island is transitioning to green energy to reduce its dependence on diesel-fired generation, which is becoming more expensive and more difficult to source as countries around the world seek to decarbonize their economies.

Smart energy solutions Norfolk Island

Incite Energy, the team behind the BESY Energy Platform, are continuously engaged on Norfolk Island. We work closely with Norfolk Island Regional Council to hold workshops, information sessions, and ensure feedback mechanisms are in place to involve residents in the transition to a more sustainable energy future.

Norfolk Island is transitioning to renewable energy solutions, using solar and batteries to lower the cost of electricity for all residents. As part of this process, every electricity meter must be replaced. In September 2023, we will begin this process in Burnt Pine and will gradually work our way around the island. What will this mean for you...

Making solar and battery solutions subsidised by the Commonwealth Government and NIRC available to property owners; Project Background. In 2022, the Commonwealth Government provided a \$5.25 million grant to Norfolk Island ...

100% of SmartEnergy"s customers" energy consumption in 2023 was matched with Renewable Energy Certificates (RECs) from the following resource mix: 96.7% Hydro RECs from the State of New York, 1.84% Wind RECs from the State of Iowa, 1.48% Wind RECs from ...

We are Smart Energy Solutions, and we provide expert solar energy solutions for families and small businesses. We"ll help you transform your energy supply into a carbon-friendly one that will reduce your energy costs. Expert Services . Solar PV; Battery Storage; Infra Red Heating; EV Charging Points;

In 2022, Norfolk City Council adopted a resolution around the commitment to reduce energy consumption by 20% as part of the Better Buildings Challenge. To increase awareness of participation, the City"s Environmental Sustainability Division created the Watts Going Down, Norfolk campaign, which has engaged 87% of City staff.

With energy innovations quickly spreading to more areas of our lives, the future of smart home energy is quickly advancing before our eyes. We consult with experts to explore the current potential of smart home energy, ...

Huawei has announced all-new smart photovoltaic (PV) and energy storage solutions at Intersolar Europe 2022. The intelligent solutions enable a low-carbon smart society with clean energy ...

In 2022 Gardel Electrical & Solar was contracted by Incite Energy who were spearheading a comprehensive grid modernisation project on Norfolk Island, with Norfolk Island Regional ...

In 2022 Gardel Electrical & Solar was contracted by Incite Energy who were spearheading a comprehensive grid modernisation project on Norfolk Island, with Norfolk Island Regional Council. This project addressed the island"s reliance on expensive and environmentally damaging diesel generation by transitioning to a sustainable solar and battery storage solution.
