Do solar batteries have backup power for grid outages?

Backup power for grid outages is traditionally one of the most desired features of a solar battery. While most batteries have this feature, a few stand above the rest in 2024. Quick facts: What we like:

Can solar power be stored in a battery?

Existing solar systems typically have solar inverters which change the DC power produced by panels to AC power that can be consumed in your home or exported onto the grid. But if you want to store that AC power in a battery, it needs to be inverted again to DC power.

What is the best solar battery?

At just 3 kWh per module, the Generac PWRcell is the most flexible and customizable solar battery on our list and perhaps the market. Stack three batteries together for 9 kWh of usable capacity - ideal for Solar self-consumption and light backup - and then add up to three more per cabinet as your storage needs increase.

Should you buy a SunVault Strage Solar System?

What we like: SunPower is a well-known and trusted solar brand and its 10-year/unlimited cycles warranty is on-par with Tesla's. If you're not a Tesla fan and a robust battery warranty is high on your list, the SunVault Strage system offers a great alternative.

Which Enphase battery is best?

The IQ 5P is by far Enphase's best and most powerful battery offering to date. Better yet, it's 5 kWh size and stackability make it incredibly versatile. Use a single module for small-scale self-consumption or stack several together to create a large backup system.
