

Who is Masdar Abu Dhabi future energy company?

About Masdar Abu Dhabi Future Energy Company (Masdar) is the UAE's clean energy champion and one of the largest companies of its kind in the world, advancing the development and deployment of renewable energy and green hydrogen technologies to address global sustainability challenges.

Could a floating solar array be a viable option in Borneo?

French agrivoltaics company Sun'Agri says that two of its facilities increased grape yields by 20% to 60% in 2024, compared to areas without solar pan... Abu Dhabi Future Energy Co. (Masdar) is teaming up with Malaysia's Sarawak Energy and Gentari to assess the potential for a large-scale floating solar array on the northwestern coast of Borneo.

Where is Masdar partnering with Sarawak Energy & Gentari?

The partnership was formalised at Masdar's headquarters in Abu Dhabi. Credit: Masdar. Masdar, in collaboration with Sarawak Energy and Gentari, is conducting a feasibility study for a potential large-scale floating solar power plant on the Murum reservoir in Sarawak, Malaysia.

Who is Sarawak Energy Berhad?

About Sarawak Energy Sarawak Energy Berhad (Sarawak Energy) is an energy development company and a vertically integrated electricity utility with a vision to achieve sustainable growth and prosperity for Sarawak by meeting the region's need for reliable, renewable energy.

Are floating solar projects a good idea for Malaysia?

Floating solar projects offer several advantages for countries like Malaysia with growing populations and a scarcity of land that is required for agriculture, housing and industry. Placing solar plants on water reduces land use, decreases water evaporation, and offers potential synergies with hydroelectric operations.

What is Masdar's second floating solar project in Southeast Asia?

The project will be Masdar's second floating solar installation in Southeast Asia after a 145 MW array in Cirata, Indonesia. The world's largest offshore floating solar plant, a 440 MW project in Taiwan, was recently commissioned. This content is protected by copyright and may not be reused.
