Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

Who is the oldest solar company in Myanmar?

Sun Power Co.,Ltd. was established since 1998. Being an oldest solar company in Myanmar, Sun Power has been involving in solar business since 18 years ago. Verified Phone E-mail Map Website 1 Photos 5 Sun Power Co.,Ltd No. (12/B), Tharlarwaddy Street, 7 Mile, Mayangone, Yangon Sun Power Co.,Ltd. was established since 1998.

Are solar cells used in Myanmar?

Myanmar, being a country with abundant sunshine, has the potential for solar energy. However, the high cost of solar energy limits its availability for some. Researchers have been conducting research on solar cells in Myanmar to address this issue.

Is Myanmar a good place to invest in solar power?

According to a study on solar resources and solar PV potential in Myanmar conducted by the World Bank, most of the population (75%-85%) lives within a 25-50 km radius of HV power lines, making it a promising location for medium- and large-scale solar projects. In 2017, peak demand reached ~3000 MW.

Where is Myanmar's first solar power plant located?

Myanmar's first solar power plant is located in Minbu, Magway Division. The plant produced 40 megawatts (MW) of electricity in its first phase of operations and will produce 170 MW once fully operational.

Mandalay Yoma is specialised in providing sustainable renewable energy solutions across Myanmar. With wide experience in solar & hybrid, the company is committed to green energy and enabling energy access in rural areas of Myanmar as well as enabling sustainability and monetary savings for commercial & industrial customers.

The Myanmar Energy Master Plan, published in January 2016, makes projections of the long-term energy demand and fuel supply mix up to the year 2030. ... The plan anticipates that the share of solar and wind in the
