

Solar energy panel factory Panama

Why is a US company building a solar panel factory in Panama?

July 26 (Reuters) - A small U.S. solar company with no manufacturing experience on Tuesday announced plans to open a solar panel factory in Panama to help the American industry reduce its reliance on Chinese-made goods.

Will universal solar America open a solar panel factory in Panama?

Universal Solar America will open a solar panel factory in Panama to supply the U.S. market.

When will universal solar install a solar plant in Panama?

The U.S. has had a free trade agreement with Panama since 2012. Equipment for the plant should be installed by early October and up to 50 employees will be hired. Universal Solar expects first delivery of modules in the fourth quarter of 2022.

Where are solar panels made?

Though solar panels are assembled in several Asian countries, the industry's raw material, polysilicon, is primarily produced in China and has been tied to concerns about forced labor in the Xinjiang region.

How many solar panels can universal solar produce?

Universal Solar can build two more similarly sized buildings at the terminal that could eventually support 5 GW of annual solar panel production. The lines will have the immediate ability to produce 350- to 545-W panels. Therefore, Universal Solar is going after all market customers -- residential, commercial and utility-scale.

What's new at Universal solar?

Solar Power World spoke with Universal Solar CEO and founder John Bereckis about the new plant, which has already signed agreements for 400 MW of its capacity and is negotiating an additional 175 MW.

Universal Solar's Panama manufacturing plant is comprised of 200,000 square feet in a state-of-the-art facility with equipment sourced from industry-leading OEMs throughout the world. Equipment is being purchased and installed, up to 50 employees are being hired, and a grand opening is scheduled for the fall.
