

Solar home system price inia South Georgia and South Sandwich Islands

How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs \$2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about \$13,173 before incentives, though prices range from \$11,197 to \$15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you \$13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

How much does solar cost in the Peach State?

Going solar in the Peach State is about 17% more expensive than the national average. The out-of-pocket investment might be higher compared with other states, but net metering and other factors can make the cost substantially lower. The average cost per watt is \$2.95 in Georgia.

What tax credits do solar panels get in Georgia?

The federal solar investment tax credit (ITC) is the biggest factor reducing the cost of going solar in Georgia. If you install a residential solar panel system by the end of 2032, you receive a federal income tax credit equal to 30% of the system's total cost. That includes equipment, labor and permits.

How much do solar panels cost?

Nationally, the price for solar panels can vary widely, from \$8,500 to \$30,500, with an average 6kW system costing around \$12,700. These figures reflect the diversity in costs that can arise due to geographical location, system size, panel type and other factors.

How much does it cost to install a solar system?

Installing a residential solar panel system -- also called a photovoltaic or PV system -- can cost between \$10,000 to \$30,000 or more. Individual costs vary significantly. On the high end, Brad in Bogart said he was quoted \$40,000 to go solar, including battery backup. The size of your system plays a big factor in the cost.
