

Solar panels for warehouse Myanmar

Who is Myanmar Solar power trading?

Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Will Myanmar adopt solar power systems in its buildings?

We expect that more commercial and industrial clients in Myanmar will adopt Solar Power systems in their buildings in the near future, and it is exciting to witness the country moving towards greener technology.

What is Myanmar's Solar potential?

In the short- to medium-term, off-grid solar home systems and mini-grid solar /solar/hybrid projects aim to connect households in remote locations where the costs of grid access are prohibitively expensive. The Asian Development Bank estimates Myanmar's potential solar resource at 27 GW. To date, very little of this potential has been realised.

Are solar cells used in Myanmar?

Myanmar, being a country with abundant sunshine, has the potential for solar energy. However, the high cost of solar energy limits its availability for some. Researchers have been conducting research on solar cells in Myanmar to address this issue.
