

# Solar portable power station nearby American Samoa

Will Tesla Solar power Ta'u in American Samoa?

Tesla has announced their solar panels are nearly entirely powering the island of Ta'u in American Samoa. The island used to depend entirely on imported diesel fuel for its electricity, but a new initiative has seen the islanders build a 1.4-megawatt microgrid that absorbs and stores solar power for all their energy needs.

Does American Samoa have a solar microgrid?

The island of Ta'u in American Samoa now boasts a solar microgrid from Tesla's SolarCity. Join us in The People v. Climate Change and share an environmental portrait of someone taking positive steps to protect the Earth on YourShot or social media. Use #MyClimateAction to share a first-person perspective on how we as humans face climate change.

Can solar power power the island of Ta'u?

The island of Ta'u in American Samoa, located more than 4,000 miles from the West Coast of the United States, now hosts a solar power and battery storage-enabled microgrid that can supply nearly 100 percent of the island's power needs from renewable energy.

How much power does a solar farm have?

This vast solar farm amounts to 1.4 megawatts of power generation capacity. Six megawatt-hours of battery storage and load balancing systems enable the microgrid to store excess energy for deployment when the sun isn't shining. As a result, the island can stay powered for three full days with no sunlight.

Will Elon Musk build more solar panels on Kauai?

Tesla and Solar City are currently installing an even bigger solar farm with almost 55,000 solar panels on the Hawaiian island of Kauai - and Tesla CEO Elon Musk has declared the companies intend to build hundreds more of these installations.

Pecron E2000LFP Real-World Testing- 1920Wh of power on tap with 2000W of output makes for a very capable portable power station.
