Offering its own climate system and brimming with sustainable solutions, the Netherlands Pavilion at Expo 2020 Dubai brings its theme, "Uniting water, energy and food", to life with an impressive cone-shaped vertical farm at its centre, growing 9,500 edible plants. All of which puts the pavilion in timely line with the key objectives of World Food Day (16 October).

The Netherlands pavilion, also known as the "Dutch Biotope", designed by V8 Architects and a consortium of partners, is a temporary circular climate system where water, energy and food solutions are intrinsically ...

OUR SOLAR SYSTEM . The Moon. The Moon is, on average, a distance of 239,000 miles (380,000km) from Earth and is best observed during its crescent or half phase when Sunlight strikes the Moon's surface at an angle. It casts shadows and adds a sense of depth to the view.

The pavilion's central theme focusing on the water-food-energy nexus was revealed during the ground breaking ceremony in Dubai on 25 June. Hans Sandee, Commissioner General on behalf of the Netherlands for the Expo 2020 Dubai, handed over the bottle of water to Najeeb Mohammed Al-Ali, the Executive Director Expo 2020 Dubai.
