

Does Serbia have a solar project?

The contract is the latest in a line of solar projects backed by Serbia's Ministry of Mining and Energy this year, which includes plans for a 1 GW solar panel factory and another 500 MW of solar. Figures from the International Renewable Energy Agency state Serbia had deployed a total 137 MW of solar by the end of last year.

How much electricity does Serbia get from fossil fuels?

Serbia currently gets more than 60% of its electricity from fossil fuels. The contract is the latest in a line of solar projects backed by Serbia's Ministry of Mining and Energy this year, which includes plans for a 1 GW solar panel factory and another 500 MW of solar.

Is solar a good option for Serbia?

A statement published on the Serbian government's website says solar is the most optimal solution to quickly reach large capacities from green sources, without burdening and endangering the stability of the transmission network. Serbia currently gets more than 60% of its electricity from fossil fuels.

How many solar plants will be built in Serbia?

The agreement commits six new solar plants to be built across Serbia. The Serbian government approved the proposed sites in September. The largest in the deal is a 460 MW facility in the territory of Negotin and Zaječar, followed by a 302 MW plant in Bošnjaci.

How many MW of battery storage will be developed in Serbia?

Up to 200 MW of battery storage will be developed across the sites. Image: Ministry of Mining and Energy, Tanjug. Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

Who signed a new power contract in Serbia?

The signing of the contract, by Serbia's Minister of Mining and Energy Dubravka Stanić, alongside representatives of state-owned power utility company Elektroprivreda Srbije (EPS) and a consortium of Hyundai Engineering and UGT Renewables, took place earlier this week.

Solaris Energy is a certified B-Corp and 1% for the planet member. Our non-profit roots and mission-based values drive our team of experienced professionals to work together with solar and battery storage builders, investors, and commercial energy consumers towards a 100% affordable and renewable energy future.
