

What is the Solomon Islands energy policy?

to the achievement of Solomon Islands' national vision: 'A united and vibrant Solomon Islands' (see Solomon Islands NDS 2011-2020) and the vision of the energy sector (see 2.1 below). The policy is also intended to guide the development over the next five years of energy sub-sector strategies and investment plans.

Why is energy important in the Solomon Islands?

Energy is included in the Solomon Islands National Infrastructure Investment Plan and the National Development Strategy as being integral and important for achieving the goals they have set. Energy is a key driver of economic growth, social development and improvement in the livelihood of communities.

Why is the power supply in the Solomon Islands so volatile?

Currently, most of the power in the Solomon Islands is dependent on diesel generated power which uses imported fuel. This volatile energy supply structure is susceptible to soaring fuel prices, and the people want it to be rectified as soon as possible.

How is the energy sector regulated in the Solomon Islands?

Solomon Islands National Energy Policy 2014 21 5.2 Governance and regulation The current institutional framework for governance and coordination is vertically structured and there is no overall coordination or regulation for the energy sector. Petroleum pricing and storage are regulated through the Price Control Act and Petroleum Act

Is biomass a source of electricity in Solomon Islands?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Solomon Islands: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

What are the energy security indicators for Solomon Islands?

against the energy security indicators. The 2009 energy security indicators for Solomon Islands can be used as a baseline for planning and monitoring progress if there is no other baseline information available. In addition, SINEP outputs should also be monitored according to the NDS objectives and goals.

o Solomon Islands Renewable Energy Project: o 4 provincial solar hybrid mini-grids (0.8MW) o Solomon Islands Electricity Access & Renewable Energy Expansion Project: o 2MW grid-connected solar capacity o 300kW rooftop solar o 5 provincial solar hybrid mini-grids (1.5MW) o Solomon Islands Rural Electrification Project:

the supply of safe, adequate and financially, technically and environmentally sustainable water supply and sanitation services to rural and urban communities in Solomon Islands and for the protection, conservation,

sustainable use and efficient ...

The Solomon Islands are a Western Tropical Pacific archipelago of 21# major islands and almost 1,000 smaller islands scattered across 1500 km, located to the northeast of Australia and east of PNG. As a result of having to rely on expensive, imported diesel for power generation, electricity on the Solomon Islands is some of the most expensive ...

Access to energy in Solomon Islands is a widespread issue. Supply is unreliable and cost unaffordable by most of the population. In rural areas it's a more pressing issue, it is almost non-existent. However, a recent initiative by the ...

Total population in Solomon Island in 2019 predicted was 712,455, with the national population density being 24 people per km<sup>2</sup>. However, there are parts of the country which are relatively densely populated, such as Central Province (49 people per km<sup>2</sup>), Malaita Province (41 people per km<sup>2</sup>), and Guadalcanal (29 people per km<sup>2</sup>). As the capital city Honiara is the highest ...

The 2014 Solomon Islands National Energy Policy (SINEP) will provide an enabling platform that will inform decision makers on policy directions and strategies for improving the effectiveness of the Solomon Islands energy sector and achieving the NDS 2011-2020 through increased access to reliable, affordable and clean sources of electricity.
