

Soltaro battery Lebanon

What is a soltaro battery?

Soltaro offers two flagship battery products in Australia, the AIO2 and the newer AIO3. Both series feature LiFePO4 (LFP) chemistry with over 10,000 cycle life, ensuring long-term durability. These batteries are All-in-one Energy Storage Systems (ESS) designed to cater to both on-grid and off-grid applications.

Where are soltaro solar batteries made?

In 2016, Soltaro opened its own solar battery manufacturing and assembly facility in Wuxi, China. Soltaro's flagship product range for home energy storage these days is the Australian-designed and engineered AIO2 ESS, available in 5kWh or 10kWh capacities - expandable up to 30kWh.

Are soltaro batteries safe?

Safety is Soltaro's top priority. Numerous protective features have been built into the product's software and hardware to ensure safe and reliable operation for years to come. Our batteries use the safest chemistry available LiFePO4 (Lithium Ion Phosphate), most batteries use cost economical types of chemistry like NMC (Nickel Manganese Cobalt).

What is the difference between soltaro domestic and commercial batteries?

Soltaro domestic batteries are designed specifically for your home. The design follows aesthetics, usage conditions and performance levels to complement your home. Commercial batteries are designed to have a utilitarian design with focus on output to meet higher demands. What is three phase? Most homes work on single phase power.

How does soltaro work?

Soltaro works best as a DC Coupled system meaning solar panels are connected directly to the inverter increasing efficiency by transferring DC power from your panels directly to DC power stored to the battery. This also utilises the full features that can be used by the battery in Emergency Power Mode.

Who are soltaro energy COTS?

Established in Australia in 2016, Soltaro have been designing, manufacturing and engineering systems to lower energy costs in homes and businesses. What difference will a battery make to my energy bills? There are a number of ways batteries can effect your energy costs.

Beautifully designed our domestic battery storage blends seamlessly in all settings. Our customer service is second to none. Together with our remote monitoring technology your updates can be remotely applied. Keeping you up to date in real time. Take a look at our home battery storage and talk to our team about your energy needs.
