

What telescopes do you use in South Africa?

We heavily involve in South Africa's MeerKAT, Square Kilometre Array (SKA), Hydrogen Epoch of Reionization Array (HERA) telescopes, LSST (Vera C. Rubin Observatory), FAST telescope and CMB Stage-4, and also use data from Atacama Cosmology Telescope, South Pole Telescope, ESO's Kilo-Degree Survey (KiDS), and Dark Energy Survey Instrument (DESI).

What is the South African radio astronomy observatory?

In the heart of this landscape, near the small Northern Cape town of Carnarvon, the South African Radio Astronomy Observatory operates a technological marvel that has transformed our understanding of the cosmos. The MeerKAT radio telescope has unlocked cosmic mysteries. It's fostered scientific collaboration. It is also nurturing local talent.

Is Africa a leader in radio astronomy?

And, thanks to initiatives like the African Very Long Baseline Interferometry Network, MeerKAT is building capacity in radio astronomy across the continent and positioning Africa as a leader in the field.

Does cosmic web contribute to FRB's dispersion measure?

Cosmic web's contribution to FRB's dispersion measure (DM) In Walker et al. (2024), we utilized the cosmological simulation "IllustrisTNG" to investigate the dispersion measures (DMs) of fast radio bursts (FRBs) accumulated as they traverse various types of large-scale structure (LSS).

By making observations at low radio frequencies, researchers are able to directly study hydrogen in the gas clouds that provided the raw material for the formation of the first luminous cosmic structures during the ...

Astrophysics never ceases to surprise us, and the recent discovery of a peculiar and record-breaking energy burst from a binary star system has sparked new questions about the universe's hidden mechanisms. This phenomenon, designated GLEAM-X J0704-37, challenges conventional wisdom about stellar systems and energy production. By delving into ...

4 ???&#0183; Umgwalo, Geometry, Cultural Preservation, and Cosmic Language in Dr Esther Mahlangu's Seven-Decade Legacy at Wits Art Museum Exhibition installation showing timeline at the back and in front a model of her home from the 1980s. Courtesy of WAM and The Melrose Gallery. Photographer: Tatenda Chidora On a Tuesday evening, the Wits Art Museum became ...

South Africa has started construction of a radio telescope called the Karoo Array Telescope (KAT). The prototype 15-m diameter dish for this array was completed in late 2007 at the Hartebeesthoek Radio Astronomy Observatory. The KAT ...
