

The most recent projects are a 580kW PV and battery energy storage system on Union Island, which was commissioned in 2019, and a 100kW solar microgrid on Mayreau island, which was commissioned in February 2020. St Vincent and the Grenadines is comprised of the main island of St Vincent and a chain of smaller islands, not all of which are inhabited.

Following a referendum in 1979, St. Vincent and the Grenadines became the last of the Windward Islands to gain full independence. Natural disasters have plagued the country throughout the 20th century. In 1902, Soufriere volcano erupted, killing 2,000 people. Much farmland was damaged, and the economy deteriorated.

St. Vincent and the Grenadines. The Human Capital Index (HCI) database provides data at the country level for each of the components of the Human Capital Index as well as for the overall index, disaggregated by gender. The index measures the amount of human capital that a child born today can expect to attain by age 18, given the risks of poor ...
