Sterling PlanB (SPBES) has announced that it is now fully certified by DNV under 2020 class rules for commercial vessel batteries. The ESS (energy storage solutions) provider says it is one of the first to achieve certification to the new standard, which aims to mitigate the risk of fire spreading by eliminating the propagation of thermal runaway within a battery.

Hydrogen is becoming a "range extender to batteries, and they work together very well," Paul Hughes, Co-founder and President of Sterling PlanB, told delegates at today's online ship.energy summit. Hughes highlighted the increasing adoption of energy storage solutions (ESS) by the maritime sector over the past decade, and he estimated that 75%-95% ...

"We look forward to working with GRSE to provide their team with strategic expertise in the practical application of energy storage solutions," Brent Perry, Sterling PlanB CEO, commented. "Ships transport about 80% of the world's commodities and maritime transport is responsible for almost 2.5% of total greenhouse gas emissions.
