

Sun smart solar Cook Islands

What is a SunSmart solar generator?

The SunSmart solar generator system is a revolutionary approach to solar power- without the downsides of fossil fuels, banks of storage batteries, and daylight-only functionality. Through new innovations in magnetic storage, SunSmart delivers uninterrupted power where and when it's needed most.

Is full-time power the future of Cook Islands?

Now with full-time power, the future has taken a new shape for Cook Islands' residents - an improved quality of life, and increased economy activity. The improved livelihood in the communities that now have the benefit of reliable, 24-hour power supply is immeasurable.

How did we help the Cook Islands Government achieve its aim?

We helped the government realise its aim. To support the Cook Islands Government, the New Zealand Government - through the Ministry of Foreign Affairs and Trade, installed mini-grid photo-voltaic power systems in a number of villages on six remote islands. We helped manage this logistically enjoyable project.

The latest sunrise of the month in Cook Islands is 7:17 AM on July 5 and the earliest sunrise is 7 minutes earlier at 7:10 AM on July 31.. The earliest sunset is 6:09 PM on July 1 and the latest sunset is 11 minutes later at 6:20 PM on July 31.. Daylight saving time is not observed in Cook Islands during 2024. For reference, on December 21, the longest day of the year, the Sun ...

SUNSMART, an integrated solar power technology, designed to disrupt the renewable energy industry. In 2016, William and Jen set-up an in-house Research & Development team to develop high-technology and innovative solar related system that will link the panels with an IP technology.

Incredibly smart. Most energy solutions on the market stop at showing you only the performance of your solar system. SunPower One goes further, identifying opportunities at home to ...
