

Sun storagetek 6100 The Gambia

What is the Sun StorageTek access volume?

The access volume, which is mapped to LUN 31, is listed only on the Mapping Summary page and is created on the Sun StorageTek 6140, Sun StorageTek 6540, and Sun StorageTek 2500 series arrays for communication between in-band management software and the storage array.

How do I set up disk scrubbing in Sun StorageTek common array manager?

Choose Administration. The Administration page is displayed. Click the check box to the right of Disk Scrubbing Enabled, and specify the number of days you want as an interval between disk scrubbing cycles. Click OK. Click Sun StorageTek Common Array Manager. The navigation pane and the Storage System Summary page are displayed.

How do I unregister a service request in Sun StorageTek?

Click Sun StorageTek Common Array Manager. The navigation pane and the Storage System Summary page are displayed. In the navigation pane, expand General Configuration and choose Auto Service Request. The Auto Service Request Setup page displays. Click Unregister.

Worked at the StorageTek office in Ann Arbor, Michigan in the late 90's. We had one or two of these huge tape libraries in our office, which was super cool. Sadly this was right in the era where Linux was really gaining steam in the Enterprise, so while StorageTek once supported dozens of different platforms, the company had whittled support ...

OR A C L E D A T A S H E E T 2 | STORAGETEK SL8500 MODULAR LIBRARY SYSTEM o Share across environments, including mainframe and open systems o Industry-leading availability with redundant and hot-swappable robotics and library control cards o Eco savings with 50 percent less floorspace and the drive types that make sense for your access and storage ...
