Where to Witness the Solar Eclipse in 2026 in Iceland: Best location. For the prime viewing of the Total Solar Eclipse on August 12, 2026, set your sights on Látrabjarg in the Westfjords area, this is the best solar eclipse viewing location identified by an Iceland Newspaper-Iceland Review.

Dawn -- A time that marks the beginning of the twilight before sunrise. It is recognized by the presence of weak sunlight, while the sun itself is still below the horizon. Sunrise -- The moment when the top of the sun disc touches the horizon on sunrise. Solar noon -- The moment when the sun appears the highest in the sky, compared to its positions during the rest of the day.

The Sun Voyager (Icelandic: Sólfar ['sou:l?fa:r?]) is a sculpture by Jón Gunnar Ánason, located next to the Sæbraut road in Reykjavík, Iceland. Sun Voyager is described as a dreamboat, or an ode to the Sun. The artist intended it to convey the promise of undiscovered territory, a dream of hope, progress and freedom.
