Featured SVS Owner Systems See our subwoofers in real home theaters. Profiles include full AV equipment lists and insights from the owners about their journey. ... Always start with speaker cables or wires that are thick enough to ...

Power SVS was founded in the early 1980s. We began our operations providing temporary power solutions to jobsites, enabling contractors to operate their equipment and work from their onsite office trailers. Since then, we have expanded into new industries, including natural disaster and pandemic support, and developing the infrastructure for the electric vehicle industry.

In Electrical Engineering, a static VAR compensator (SVC) is a set of electrical devices for providing fast-acting reactive power on high-voltage electricity transmission networks. [1] [2] SVCs are part of the flexible AC transmission system [3] [4] device family, regulating voltage, power factor, harmonics and stabilizing the system. A static VAR compensator has no significant ...
